Threaded bottles

Condensa offers extruded aluminum threaded bottles with different neck sizes for solid, semi-solid and liquid products.

38/400 threaded bottles

This 38/400 wide mouth threaded bottle is ideal for solid, semi-solid and powder oral formulations for the nutraceutical and pharmaceutical industries.

Dimensions	Overflow cap.	Filling line
45 x 95 mm	125 mL	105 mL
53 x 110 mm	200 mL	180 mL
59 x 140 mm	318 mL	300 mL
59 x 160 mm	367 mL	347 mL

24/410 threaded bottles

Ideal for oral formulations of various industries.

Dimensions	Overflow cap.	Filling line
35 x 97 mm	75 mL	72 mL
45 x 115 mm	145 mL	132 mL
45 x 150 mm	200 mL	185 mL
45 x 165 mm	221 mL	203 mL
53 x 145 mm	256 mL	240 mL
53 x 175 mm	314 mL	271 mL
53 x 207 mm	386 mL	370 mL

ROPP 28 bottles

This Roll on Pilfer Proof bottle has a 28 mm opening and is ideal for beverages and oral formulations for the nutraceutical, pharmaceutical, personal care and beauty industries.

Dimensions	Overflow cap.	Filling line
35 X 105 mm	80 mL	65 mL

Snap bottles

Bottle for nutraceuticals, pharmaceuticals and over-the-counter products. Lightweight, strong, fully recyclable and ideal for capsules, tablets and powder applications.

Snap cap bottles

We manufacture our Snap bottles with a flip-top cap for easy handling. In addition, this container has a wide neck, so it can be used for larger capsules and tablets.

Dimensions	Overflow capacity	Filling line
45 x 95 mm	125 mL	105 mL
53 x 110 mm	200 mL	180 mL
59 x 140 mm	318 mL	300 mL
59 x 160 mm	367 mL	347 mL

Beverage bottles

We have screw cap and crown cap bottles. Our crown cap bottle is focused on one of the most common seals in the market. On the other hand, our 24/410 screw cap bottle with rolled neck and our ROPP 28 bottles are ideal for shots and energy shakes.

24/410 threaded bottles

Ideal for liquid formulations, such as shots and shakes.

Dimensions	Overflow cap.	Filling line
35 x 97 mm	75 mL	72 mL
45 x 115 mm	145 mL	132 mL
45 x 150 mm	200 mL	185 mL
45 x 165 mm	221 mL	203 mL
53 x 145 mm	256 mL	240 mL
53 x 175 mm	314 mL	271 mL
53 x 207 mm	386 mL	370 mL

Crown cap bottles

This bottle is specially developed for crown caps, one of the most common seals in the beverage industry. In addition, they have a long neck to facilitate handling and product intake.

Dimensions	Overflow cap.	Filling line
59 x 190 mm	366 mL	333 mL
59 x 235 mm	480 mL	447 mL

ROPP 28 bottles

This Roll on Pilfer Proof bottle has a 28 mm opening and is ideal for beverages and oral formulations for the nutraceutical, pharmaceutical, personal care, beauty and food industries.

Dimensions	Overflow cap.	Filling line
35 X 105 mm	80 mL	65 mL

Perfume bottles

We develop small mouth containers for various uses of aerosol and non-pressure release products. These bottles are ideal for products that require valves, pumps, actuators and other type of dispensers.

20 mm perfume bottles

Our perfume containers have 20 mm openings. They are typically used for perfumes or skin products and can be used with products containing internal pressure, making them ideal for aerosol systems, as well as other types of non-pressure release dispensers.

Dimensions	Overflow capacity
35 x 97 mm	83 mL
45 x 115 mm	160 mL

Aerosols

We have a wide range of aerosol containers of different dimensions, shoulders and formats.

Aerosols

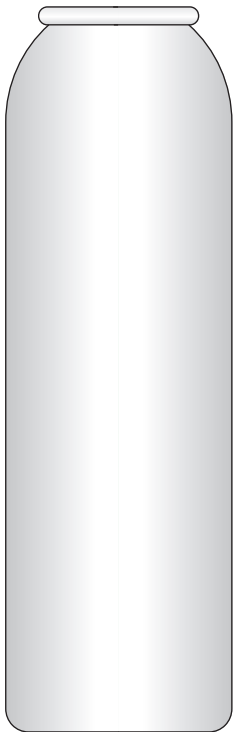

At Condensa you can find aerosol containers with diameters ranging from 35 mm to 59 mm and heights starting at 97 mm. In addition, we have oval, torpedo, flat 35° and grooved shoulders, among others.

Contact our team directly for special sizes and for the specific format and dimension you are looking for.

We manufacture the following standard formats and dimensions for aerosols:

Oval

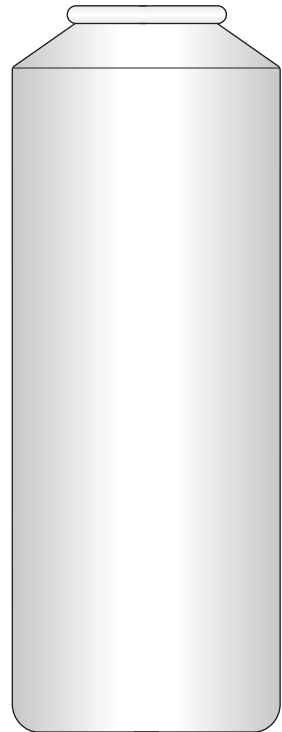

Diameter (mm)	Height (mm)
35	97, 125, 140
38	106
45	125, 150
53	140, 165, 207, 215, 225
59	215

Torpedo

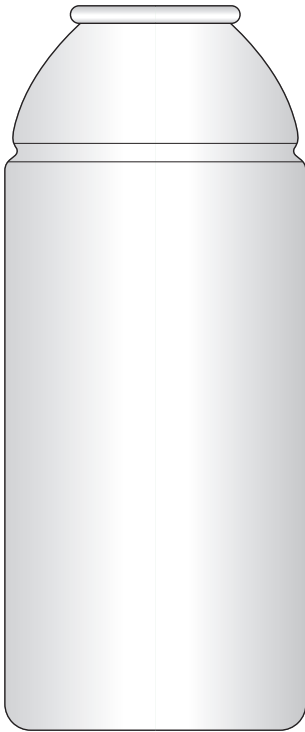

Diameter (mm)	Height (mm)
45	145
53	165, 175

Flat 35°

Diameter (mm)	Height (mm)
53	110, 120, 145

Grooved oval

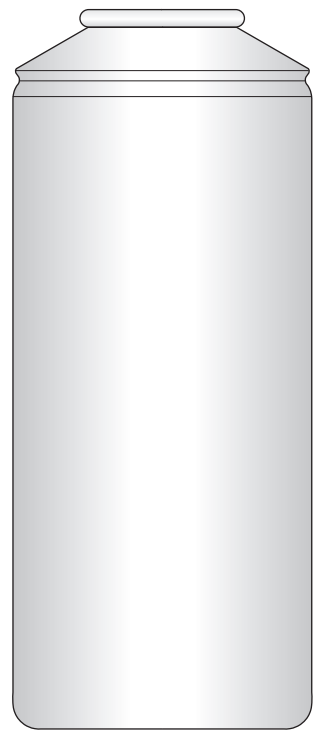

Diameter (mm)	Height (mm)
59	140

Grooved oval 2

Diameter (mm)	Height (mm)
53	150

Grooved flat

Diameter (mm)	Height (mm)
45	115
53	185
